Sub : UPGRADATION & MODERNIZATION OF PROJECT FOR INCREASE IN PRODUCTION CAPACITY

Sir,

We would like to inform that, we are operating our Induction Furnace project of 100800 TPA MS Ingot/Billet followed by TMT Bar and Structures at Chimochak, Mahuli, Deedarganj, Dist. Patna. Now, in order to bridge the demand supply gap of the TMT Bar and structures in the region we proposed for modernization and upgradation of existing project. Details are as under ;

- i. Our project was established in the year 1991. Initial production capacity of JGFL was 28800 TPA MS Billet (2 Nos. Induction Furnace of 6 Ton capacity each)
- ii. We have obtained EC for expansion from SEIAA Bihar vide F. No. SIA/3(a)/449/17 Dt: 24.08.2018, production capacity has been increased by installation of additional 2 nos. 8 Ton induction furnace each for production capacity of 76800 TPA MS Billet.
- iii. As per guidelines of MoEFCC, Govt. of India (vide Gazette Notification S.O. 980 (E), Dt: 02.03.2021, Amendment in EIA Notification 2006), we have obtained approval from Bihar State Pollution Control Board (BSPCB) for expansion in MS Billet production from 76800 TPA to 100800 TPA and addition of new product TMT Bar and Structures production capacity 100800 through CCM route on the basis of No Increase in Pollution Load proposal.
- iv. BSPCB has granted CTE for expansion project vide Memo No. 199 Dt: 23.01.2022 & Emission & Discharge Consent Order respectively vide Ref. No. 2462 & 2463 Dt: 28.07.2022 which is valid upto 27.07.2027
- v. Under the provisions of MoEFCC, Govt. of India, Gazette Notification No. S.O.980-(E), dated 21st March 2021 regarding No Increase in Pollution Load, we have submitted our proposal on Parivesh Portal for increase in production capacity with change in project specification by upgradation of existing 8 Ton Induction Furnace (02 Nos.) to 10 Ton Induction furnace.

- vi. Due to change in project specification and expansion in production capacity, there will be no increase in pollution load rather, this change will reduce the pollution load in terms of air quality due to certain modification and upgradation of equipment.
- vii. Total Cost of expansion project for installation of furnace and structural mill will be Rs. 20.0 Crores.
- viii. As per MoEFCC, Govt. of India, OM vide F. No. 22/20/2021-IA.III [E-164476], we have submitted our above referred Proposal on Parivesh Portal with Certificate of No Increase in Pollution Load from QCI-NABET Accredited EIA Consultant Metallurgical Industries, Paramarsh Servicing Environment and Development, Lucknow.

In view of the above, we are submitting herewith Acknowledgement generated from Parivesh Portal for your kind consideration and grant approval for expansion of our Project.

Thanking you
Yours faithfully
