Sub : **PROJECT DIVERSIFICATION FOR CHANGE IN PRODUCT MIX**

Sir,

We would like to inform that, our Grain Based Distillery Project of 450 KLPD is under operation. Recently, Govt. has minimize and restrict Ethanol lifting from ethanol manufacturing units, which results in financial instability of the project. To overcome this scenario, we proposed to diversify our project by utilizing CO₂ (generated during ethanol production) for production of its derivatives, process condensate for production of Acetic Acid followed by Esters and by utilizing surplus ethanol for production of its derivatives viz. Ethyl Acrylate, Acetaldehyde, Croton Aldehyde, Diethyl Ether & Pharma Grade Ethanol.

In view of the above referred diversification for change in product mix project, we would like to submit herewith as under ;

- i. EC for expansion of Grain Based Distillery to 325 KLPD and Cogeneration Power Plant of 10 MW capacity has been obtained from MoEFCC, Govt. of India vide F. No. J-11011/25/2007-IA-II(I) Dt: 05.09.2023.
- ii. BSPCB has granted approval approval under No Increase in Pollution Load for expansion of project from 325 KLD to 450 KLD vide Ref. No. 714 Dt: 19.06.2025 followed by Consent to Establish (CTE) vide Memo No. 841 Dt: 14.07.2025 and CTO (CCA) vide Ref. No. 1435 Dt: 12.09.2025, which is valid upto 30.06.2030

Under the provisions of MoEFCC, Govt. of India, Gazette Notification No. S.O.980-(E), dated 21st March 2021 regarding No Increase in Pollution Load, we have submitted our proposal on Parivesh Portal for proposed diversification project for change in product mix for additional products with No Increase in pollution load certificate.
