Details of Action Plan for the issues raise during the Public Hearing

S.No	Name & Address	Issues Raised by Locals/Public	Answers given by Consultant (Response/Action Plan)
1.	Shri Vinod Kumar S/o Shri Virendra Singh Village- Shadipur, District - Gaya	It was suggested by them that the sand ghat should not be closed and local citizens should be given priority employment during sand lifting and in other works.	The above suggestion was accepted by the proposer's representative.
2.	Shri Sanjay Kumar S/o Vasudev Yadav Village- Shadipur, Manpur, District - Gaya	It was also suggested by them that the sand ghat should be made operational and employment should be given to the local citizens on priority during sand lifting and in other works.	The above suggestion was accepted by the proposer's representative.
3.	Shri Nagendra Singh S/o Dev Nandan Singh, Village- Rasadpur, District- Gaya	It was told by them that whatever sand will be lifted at Balu Ghat, it should be lifted according to the guidelines of the government.	The above was accepted by the proposer's representative.
4.	Shri Dharmendra Singh, S/o Shri Baldev Singh,	Questions related to prevention and employment of air pollution were asked by them.	In this regard, it was told by the environmental consultant of the project proponent that sprinkling of water will be done three to four times a day to prevent dust particles emitted during sand transportation,

	Village- Shadipur District- Gaya		completely during the transportation of vehicles laden with sand. Vehicles will be transported covered with tarpaulin Along with this, employment will be given according to their ability, giving priority to the local citizens in the maintenance of trees and other works during sand lifting. In this way Mr. Dharmendra Singh was satisfied by presenting his answer.
5.	Shri Amit Kumar, S/o Shri Ramji Sharma, Village- Pir Bigha District- Gaya	Questions related to prevention and protection of air pollution were also asked by them.	In this regard, it was stated by the environmental consultant of the project proponent that The following work will be done for prevention of air pollution control:- Emission during sand transportation. Water sprinkling will be done three to four times a day to prevent dust particles, during transportation of sand laden vehicles, vehicles will be completely covered with tarpaulin. The following work will be done for safety: - Sand laden vehicles will not be operated during the time of going to office in the morning and children going to school. There is a provision for compensation by the government in case of any untimely accident during sand transportation, in which order compensation will be given by the transport department in the light of the new notification dated 15.08.2021 issued by the state government. In this way Mr. Amit Kumar was satisfied by presenting his answer.
