Details of Action Plan for the issues raise during the Public Hearing

S.No	Name & Address	Issues Raised by Locals/Public	Answers given by Consultant (Response/Action Plan)
1.	Shri Vicky Kumar Singh Village- Mohanpur, District - Gaya	They were asked questions related to providing employment during sand mining.	In this regard, it was told by the environmental consultant of the project proponent that during sand lifting, in taking care of trees and plants and in other works, local citizens will be given priority and given employment as per their ability. Thus, Mr. Vicky Kumar Singh was satisfied by presenting his answer.
2.	Shri Vikas Kumar Village- Suryamurya, Mohanpur, District - Gaya	They asked questions related to prevention of environmental damage caused during sand mining.	In this regard, it was told by the environmental consultant of the project proponent that to control the dust particles emitted during sand transportation, water will be sprinkled three to four times a day. During the transportation of vehicles laden with sand, water will be completely sprayed. Vehicles will be transported covered with tarpaulin Also, plantation will be done on the roadside around the mining area, so that there is no adverse effect of dust on the agricultural land of the local villagers and the mining work will be done to a depth of 3 meters from the surface or above the ground water level, which will cause harm to the environment. Couldn't reach. Thus, Mr. Vikas Kumar was satisfied by presenting his answer.
3.	Shri Surendra Yadav Village- Mohanpur, District- Gaya	Prevention of dust particles emitted by them during sand transportation; A question related to this was asked.	In this regard, it was told by the environmental consultant of the project proponent that to control the dust particles emitted during sand transportation, water will be sprinkled three to four times a day and vehicles laden with sand will be completely cleaned during transportation. Vehicles will be transported covered with

			tarpaulin. Thus, Shri Surendra Yadav was satisfied by presenting his answer.
4.	Shri Hriday Kumar Village- Simra Mohanpur, District- Gaya	He was asked a question related to the breakdown of the road during sand transportation.	In this regard, the environmental consultant of the project proponent told that whatever rural road gets broken during sand transportation, it will be repaired by the lessee. Thus, Mr. Hriday Kumar was satisfied by presenting his answer.
5.	Shri Pintu Kumar, Village- Simra Mohanpur, District- Gaya	They asked questions related to environmental protection due to excessive traffic of trucks and tractors during sand transportation.	In this regard the project proponent's environmental consultant informed that to prevent air pollution control, the following work will be done: - To prevent dust particles being emitted during sand transportation, water will be sprinkled three to four times a day. During the transportation of vehicles laden with sand, complete cleaning will be done. Naturally, the vehicles will be covered with tarpaulin and transported, along with this, trees will be planted on the roadside around the mining area, so that the dust does not have any adverse effect on the agricultural land of the local villagers. The following work will be done to control noise pollution: - Lacey has been instructed not to operate old vehicles and will also not use loud horns. Thus, Shri Pintu Kumar was satisfied by presenting his answer.
6.	Mohammad Alam, Village – Mohanpur, Siriyawan panchayat, District- Gaya	Provision of drinking water by them in their rural areas; A question related to this was asked.	In this regard, the environmental consultant of the project proponent told that arrangements for drinking water will be made at various places in the rural areas, so that the villagers do not face the problem of drinking water. Thus, Mohd. Alam was satisfied by presenting his answer.
7.	Shri Jagdish Majhi, Village- Nutanbigha, Mohanpur, District – Gaya	They were also asked questions related to the provision of drinking water in rural areas.	In this regard, the environmental consultant of the project proponent told that along with the problem of drinking water at many places in rural areas, boring facilities will also be provided as per requirement. So that the villagers do not face water problems. Thus, Mr. Jagdish Mojhi was satisfied by presenting his answer.
