Details of Action Plan for the issues raise during the Public Hearing

S.No	Name & Address	Issues Raised by Locals/Public (Response/Action Plan)
1.	Shri Chiku Sharma Village – Mandaul, District- Gaya	It was suggested by them that to control the dust particles emitted during sand transportation, water should be sprinkled regularly during the day, and vehicles laden with sand should be completely covered with tarpaulin during transportation. This should be done and employment should be given to local citizens on priority basis. The above suggestion was accepted by the proposing representative.
2.	Shri Ranjit Kumar Yadav, Village- Tinari, District - Gaya	Questions related to prevention of air pollution and employment were asked by them. In this regard, the environmental consultant of the project proponent informed that the following work will be done to control air pollution: - Spraying of water three to four times a day to control the dust particles emitted during sand transportation. Will be done, During transportation of vehicles laden with sand, the vehicles will be completely covered with tarpaulin and trees will be planted on the roadside around the mining area, so that there is no adverse effect of dust on the agricultural land of the local villagers. Also, during sand lifting, maintenance of trees and other works, local citizens will be given priority and given employment as per their capability. In this way, the environmental consultant of the project proponent satisfied Shri Ranjit Kumar Yadav by presenting his reply.
3.	Shri Dipu Kumar	Questions related to sand theft and sand mining at greater depth were asked by them.

	Village – Mandaul, District- Gaya	In this regard, the environmental consultant of the project proponent told that in the sand mining area, sand will be excavated to a depth of 3 meters or above the ground water level. Also, sand mining will be done as per government rules. If the drilling is done to a greater depth then the local villagers can complain to the local administration. Thus, the environmental consultant of the project proponent satisfied Shri Dipu Kumar by presenting his reply.
4.	Shri Ranjit Kumar, Village – Rauna District- Gaya	It was suggested by them that as many trees as possible should be planted on the banks of the river so that soil erosion can be stopped. The above suggestion was accepted by the proposing representative.
5.	Shri Avinash Kumar, Village – Mandaul District- Gaya	Dust particles emitted by them during sand transportation and employment related issues. In this regard, it was told by the environmental consultant of the project proponent that to control the dust particles emitted during sand transportation, water will be sprinkled three to four times a day. During the transportation of vehicles laden with sand, water will be completely sprayed. Vehicles will be covered with tarpaulin and transported and during sand lifting, tree care and other works, local citizens will be given priority and given employment as per their capability. Thus, the environmental consultant of the project proponent satisfied Shri Avinash Kumar by presenting his reply.
