

Details of Action Plan for the issues raise during the Public Hearing

S.No	Name & Address	Issues Raised by Locals/Public
1	Shri Shiv Kumar Yadav, Address: Panchratan, Dobhi, District: Gaya.	They were asked a question related to providing sand to the local villagers at a lower rate after sand excavation. In this regard, the environmental consultant of the project proponent told that sand will be made available to anyone only at the price fixed by the Bihar government. Thus, Shri Shiv Kumar Yadav was satisfied by presenting his answer.
2	Shri Dhanjay Kumar, Address: Kharanti, District: Gaya.	At what depth do they mine sand in the river? A question related to till was asked. In this regard, the environmental consultant of the project proponent told that sand will be mined in the mining area to a depth of 3 meters or above the ground water level. Thus, Shri Dhanjay Kumar was satisfied by presenting his answer.
3	Shri Rajan Khan, Address: Karamouli, District: Gaya.	They were asked questions related to road breakage during sand transportation, prevention of dust particles and planting of trees. In this regard, the environmental consultant of the project proponent told that whatever rural road gets damaged during sand transportation, the lessee has to repair it three to four times a day to prevent dust particles being emitted during sand transportation. Water will be sprinkled, vehicles loaded with sand will be completely covered with tarpaulin during transportation and about 500 to 600 trees will be planted in Lacey during this project period. Thus, Shri Rajan Khan was satisfied by presenting his answer.
4	Shri Rupesh Kumar, Address: Baria Dobhi, District: Gaya.	Questions related to providing employment to local people were asked. In this regard, it was told by the environmental consultant of the project proponent that during sand lifting, care of trees and plants and other works, local citizens will be given priority and given employment as per their capability. Thus, Mr. Rupesh Kumar was satisfied by presenting his answer.
5	Shri Mukesh Kumar Yadav, Address: Dobhi, District Gaya	During mining on the sand ghat, the water level goes down; A question related to this was asked. In this regard, it was assured by the environmental consultant and lessee of the project proponent that if required, the facility of boring and pansala will be provided at various places for the local people.
