| S.No | Name & Address                                                                                | Issues Raised by Locals/Public                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|------|-----------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1    | Shri Sonu Kumar,<br>Address- Dariyapur,<br>District- Nawada                                   | Questions were asked regarding what benefits the common people would get from sand mining.<br>In this regard, the environmental consultant of the project proponent told that during sand lifting, care of trees and plants and other works, local citizens will be given priority and employment will be given according to their ability and also the government's revenue from sand mining will be increased. will also increase.<br>Thus, Mr. Sonu Kumar Singh was satisfied by presenting his answer.                                                                                                                                                                            |
| 2    | Shri Mithilesh Kumar,<br>S/o Shri Arun Yadav,<br>Address- Dariyapur,<br>District- Nawada      | It was suggested by them that to prevent the dust particles emitted during sand transportation, vehicles laden with sand should be completely covered with tarpaulin during transportation.<br>The above suggestion was accepted by the proposing representative.                                                                                                                                                                                                                                                                                                                                                                                                                     |
|      | Shri Kamlesh Kumar,<br>Address- Dariyapur,<br>District- Nawada                                | He was asked a question related to the damage to the road during sand transportation.<br>In this regard, the environmental consultant of the project proponent told that whatever rural road gets broken during sand transportation, it will be repaired by the lessee.<br>Thus, Shri Kamlesh Kumar was satisfied by presenting his answer.                                                                                                                                                                                                                                                                                                                                           |
| 4    | Shri Ramsheeh Prasad,<br>S/o Shri Bharamdev Yadav,<br>Address- Dariyapur,<br>District- Nawada | They asked questions regarding road jams and accidents due to sand transportation and suggested that sand mining operations should be started so that illegal sand mining can be stopped.<br>In this regard, the environmental consultant of the project proponent told that vehicles laden with sand will not be operated while children are going to and from school. If there is any untimely accident during sand transportation, there is a provision to give compensation by the government, in the light of the new notification dated: 15.08.2021, compensation will be given by the Transport Department. Thus, Shri Ramashish Yadav was satisfied by presenting his answer. |
| 5    | Shri Devnandan Prasad,<br>S/o Shri Bhagal Yadav,<br>Address- chhadipur,<br>District- Nawada   | It was suggested by them that sand mining operations should be started so that illegal sand mining can be stopped.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
