S.No	Name & Address	Issues Raised by Locals/Public
01	Shri Neeraj Kumar, Address: Bhorghati, District: Gaya.	Questions related to the use of DMF funds were asked by them. <i>In this regard, the environmental consultant of the project proponent told that the DMF fund will be spent in a planned manner as per the requirement by the committee constituted at the district officer level and at the same time, social work is done at the local level, all of them are helped on receiving information and Expenses are incurred in case of emergency. Thus, Shri Neeraj Kumar Singh was satisfied by presenting his answer.</i>
02	Shri Rajeev Ranjan, Address: Bhorghati, District: Gaya.	Pollution control through these; A question related to this was asked. <i>In this regard, the environmental consultant of the project proponent informed that the following work will be done to control air pollution: - To prevent the dust particles emitted during sand transportation, water will be sprayed three to four times a day. During transportation of loaded vehicles, the vehicles will be completely covered with tarpaulin and trees will be planted on the roadside around the mining area, so that there is no adverse effect of dust on the agricultural land of the local villagers.</i> <i>To prevent water pollution control, the following work will be done: Mining work will be done to a depth of 3 meters from the surface or above the ground water level. So that there is no problem of water pollution. The following work will be done to control noise pollution: - Lacey has been instructed not to operate old vehicles and will also not use loud horns. Thus, Shri Rajeev Ranjan was satisfied by presenting his answer.</i>

03	Shri Vibhuti Bhushan, Address: Kathar, Bhorghati, District: Gaya.	Questions were asked related to providing employment and wages to local people. <i>In this regard, the environmental consultant of the project proponent told that during sand lifting, tree care and other works, local citizens will be given priority and employment will be given as per their capability and they will not be given less than the wages fixed by the Labor Department. Thus, Shri Vibhuti Bhushan was satisfied by presenting his answer.</i>
04	Shri Upendra Yadav, Address: Mahamtajpur, Bhorghati. District: Gaya.	They were asked questions related to prevention of dust particles emitted during sand transportation and tree plantation. <i>In this regard, it was told by the environmental consultant of the project proponent that water will be sprinkled three to four times a day to prevent dust particles being emitted during sand transportation, and vehicles laden with sand will be completely covered during transportation. The dust will be covered with tarpaulin and transported and trees will be planted on the roadside around the mining area, so that the dust does not have any adverse effect on the agricultural land of the local villagers. Also, maximum tree plantation will be done during the mining period. Thus, Shri Upendra Yadav was satisfied by presenting his answer.</i>
05	Shri Sumit Kumar, Address: Kathar, Bhorghati, District: Gaya.	He asked the question. What benefit do we get from their sand mining? <i>In this regard, it was told by the environmental consultant of the project proponent that along with sand lifting during mining, local citizens will be given priority and given employment as per their ability in taking care of trees and plants and in other works. Also, due to sand mining, Government revenue will increase. Thus, Mr. Sumit Kumar was satisfied by presenting his answer.</i>
