Details of Action Plan for the issues raise during the Public Hearing

S.No	Name & Address	Issues Raised by Locals/Public
01	Shri Asim Akram, Address: Hamzapur, Panchayat- Mahuwan District: Gaya	Questions were asked related to controlling dust particles emitted during sand transportation and providing employment to local people. <i>In this regard, the environmental consultant of the project proponent informed that water will be sprinkled three to four times a day to prevent dust particles being emitted during sand transportation. During the transportation of vehicles laden with sand, water will be completely sprayed. Vehicles will be transported covered with tarpaulin. Also, during sand lifting, maintenance of trees and other works, local citizens will be given priority and given employment as per their capability. Thus, Mr. Asim Akram was satisfied by presenting his answer.</i>
02	Shri Kamruddin, Address: Hamzapur, Panchayat- Mahuwan District: Gaya.	A question was asked by them that the Ghat has been operated earlier also but the local people have not got employment. Will the local people get employment this time or not? <i>In this regard, it was told by the environmental consultant of the project proponent that this time during sand lifting, in the care of trees and plants and in other works, local citizens will be given priority and given employment as per their ability. And the representative of Lacey also assured that only local people will be given employment. Thus, Mr. Kamruddin was satisfied by presenting his answer.</i>
03	Shri Vivek Kumar Address: Kathar, District: Gaya.	<i>It was suggested by them that maximum plantation should be done during the mining period, regular spraying of water should be done three to four times a day to control the dust particles emitted during sand transportation, sand mining It should be in accordance with the standards set by the</i>

		<i>government and local citizens should be given priority and given employment according to their qualifications.</i> <i>The above suggestion was accepted by the proposing representative.</i>
04	Shri Avinash Kumar, R/o Kathar, Ward No. 04, District: Gaya.	It was told by them that sand mining takes place at a very deep depth in the river. A question was asked regarding how many meters this depth should be. <i>In this regard, the environmental consultant of the project proponent told that in the sand mining area, sand has to be excavated to a depth of 3 meters or above the ground water level. If it is done more than this, then the local villagers can complain to the district administration. Is. Thus, Mr. Avinash Kumar was satisfied by presenting his answer.</i>
05	Shri Shankar Kumar, R/o Kathar, Ward No. 04, District: Gaya.	<i>He said that it is necessary in the public interest to carry out sand mining work, hence the operation of the Ghat should be started as soon as possible so that the local people get employment and the revenue of the government increases.</i>
