Details of Action Plan for the issues raise during the Public Hearing

S.No	Name & Address	Issues Raised by Locals/Public
01	Shri Ankur Prasad Singh, (Former Head) Kunj District: Nawada.	<i>It was said by them that sand mining work should not be done from this ghat, because the operation of hired vehicles during mining will cause damage to the local rural road. Due to sand mining done on this ghat in the past, the ground water level has also decreased. Therefore, it is requested that the project proposal related to mining from this sand ghat should not be approved.</i> On the points raised above, it was explained by the environmental consultant that in case of damage to the rural road during sand transportation by vehicles, the repair work will be done by the lessee and in special circumstances, water facility will be provided to the local people.
02	Shri Sameer Kumar, Village: Kunj, District: Nawada.	<i>It was said by them that sand mining should not be done from this ghat, because due to sand mining in the past, some houses of the villagers living on the banks of the ghat have been damaged. Also the guide wall (which is meant to control the flow of the river so that it does not have any adverse effect on the villagers living on the local river banks) has also been damaged. Therefore, it is requested that the project related to this sand ghat should not be approved.</i> It was told by the environmental consultant that the sand ghat has been constructed leaving 15 feet from the river banks and mining will be done leaving 7.5 meters all around in the allotted area.
03	Shri Ramakrishna Kumar, Village: Kunj, District: Nawada.	<i>It was said by them that sand mining should not be done from this ghat, because due to sand mining in the past, some houses of the villagers living on the banks of the ghat have been damaged. Also the guide wall (which is meant to control the flow of the river so that it does not have any adverse effect on the villagers living on the local river banks) has also been damaged. Therefore, it is requested that the project related to this sand ghat should not be approved.</i> It was told by the environmental consultant that the sand ghat has been constructed leaving 15 feet from the river banks and mining will be done leaving 7.5 meters all around in the allotted area.

04	Shri Inderjit Singh, Village: Kunj, District: Nawada.	<i>It was said by them that sand mining should not be done from this ghat, because due to sand mining in the past, some houses of the villagers living on the banks of the ghat have been damaged. Also the guide wall (which is meant to control the flow of the river so that it does not have any adverse effect on the villagers living on the local river banks) has also been damaged. Therefore, it is requested that the project related to this sand ghat should not be approved.</i> It was told by the environmental consultant that the sand ghat has been constructed leaving 15 feet from the river banks and mining will be done leaving 7.5 meters all around in the allotted area.
05	Shri Ajay Singh, Village: Kunj, District: Nawada	<i>He protested and said that sand mining should not be done from this ghat, sand mining can break the bridge built on the river connecting seven panchayats. Also, due to mining, there may be problem in Patwan also. Therefore, it is requested that the project related to this sand ghat should not be approved.</i> It was told by the environmental consultant of the proponent that the ghat has been constructed leaving one kilometer from the bridge, which follows the standards of EMGSM 2020.
