

A photograph of a vast agricultural field. On the left side, there is a narrow, unpaved dirt path that runs parallel to a row of crops. The crops on the left appear to be a different variety or are more mature than the rest of the field, showing some yellowing. The rest of the field is filled with dense, vibrant green crops, likely a cereal grain like rice or wheat, in the early stages of growth. The field extends to a flat horizon under a pale, overcast sky. In the far distance, some trees and utility poles are visible.
